

MTR Teacher Evaluation

1. Were your expectations met for today's event?

Completely    for the most part    partially    not at all

11

Explain:

It was very nice to have the opportunity to share successful lessons with other teachers. I think we needed more time to talk to other teachers.

Great group of participants.

This is a great workshop. I'm a presenter and I got some ideas from other presenters after the workshop!

Good turn out! Enthusiastic participants.

Well organized in every aspect.

Except I missed the signs from the parking lot.

I didn't know what to expect!

Enthusiastic participants - eager to learn.

The teachers/students were great. Everyone participated and seemed interested. 30 minutes was much better than 20 minutes.

Wonderful program. I hope they can keep it going.

I enjoyed taking part in this year's MTR. You do a great service to "pre-teachers." A one day program like yours is worth more to future teachers than a large portion of their teacher education classes. Keep up the good work.

2. At this point would you be interested in participating again in a similar event?

yes

Maybe

No

10

1

3. How many appointments did you make with students for classroom observations?

2

3

4

5

2

2

8-10

2

4

Plus 3 requests for lesson plans

4. Another comments/suggestions?

I was disappointed that I was on LMU campus and did not have but a couple of LMU students.

Thanks!

The additional time for the rotations really helped this year. The participants really seemed eager and enthusiastic. Great job to the people who set up this program.

Would like longer sessions to present in.

Keep on doing this!

I would like to see more LMU participants. Are student teachers invited?

The participants were so alive and interested in what I was talking about that we never got to the project portion of the groups. If I have the time free on my calendar in the future, I'd be proud to participate again.
